

## MX COORDINATION OFFICE [685]

### FEDERAL AID PROGRAMS SUBJECT FILES, 1978-1981.

1.75 CU FT

**DESCRIPTION:** Since World War II community impact assistance programs funded by the federal government have been available to communities and states affected by large defense projects. In response to President Carter's Executive Order 12049, a cabinet level committee was established to coordinate activities of several federal agencies and departments in relation to the MX missile project. Chaired by Secretary of Defense Harold Brown, the committee sponsored an MX Economic Adjustment Program and funded activities including (1) organization of community groups, (2) planning for community impact assistance, (3) mobilization of private sector resources, and (4) implementation of community impact assistance.

Officials from both Utah and Nevada applied for funding under this program. A single contact point in the Federal Government, the Office of Economic Adjustment, was established to avoid the confusion and delay resulting from trying to coordinate needs with a variety of agencies. Information on various federal programs useful to local planning efforts was collected from this and from other sources.

The files contain reports, studies, correspondence, and other documents describing the recent history of community impact assistance programs in other parts of the country, and illustrating efforts by local officials in Utah and Nevada to obtain adequate resources for coping with anticipated impacts of MX deployment in Utah and Nevada.

**ARRANGEMENT:** Organized alphabetically by subject.

**RELATED RECORDS:** Problems of planning for missile impacts is also a central activity

that generated the ADMINISTRATIVE RECORDS of the office, series #4246. The MX MISSILE IMPACT PLANNING AND SUBJECT FILES, Series #4250, deals with specific issues that faced Utah planners, while the MX DRAFT ENVIRONMENTAL IMPACT STATEMENT AND TECHNICAL REPORTS, series #4254, contains detailed information about specific impacts of missile deployment.

**CUSTODY HISTORY:** After the Utah MX Coordination Office was closed in 1981, its records were used as a reference resource by the Office of Planning and Budget. Transfer to the archives occurred in 1984.

**PROCESSING NOTE:** Archival processing was completed in 1987 by Brent Brinkerhoff.
